

# bordeaux 60

## semi-custom yachts by CNB

### **A lifting keel for the Bordeaux 60!**

As requested by her owner, whose port of call is Vannes in Brittany, Marijosé, hull # 17, is the first Bordeaux 60 equipped with a lifting keel. The CNB developed hydraulic system allows a 50 cm draft reduction with the keel up, without any modification of the interior accommodations.

In the "down" position, the torpedo type 10 100 kilogram keel gives Marijosé a 2,55 m draft, so that her performance under sail is similar to that of fixed keel boats.
