y a c h t s

The Bordeaux 60 comes back to Nautic 2010 Hall 1 stand H42

After Cannes, Genoa, Barcelona, the Bordeaux 60 will again be the largest sailing yacht exhibited at the Paris show, where she will show her beautiful 2011 version.

For her 2nd visit to Paris, the CNB small superyacht will be dressed up smart: **numerous details have enriched her exterior design, her interior architecture, her comfort...**

Flush deck hatches and grey teak joints make the deck even more elegant and harmonious, and a «performance» mast and a «V» carbon Hall Spars boom are now offered as an option for an even greater sailing pleasure...

Inside, the leather sheathed hand rails add an extra classy touch to the salon and the adjustable chart table seat ensures perfect comfort for the navigator.

CNB Yachts also **means the contribution of CNB's know how in custom yacht building**, which allows the Bordeaux 60 team to study the **specific wishes of customers**: a few examples are a Bordeaux 60 with a white limed teak interior finish, or a jacuzzi in the owner's bathroom on another boat. And CNB is currently building a Bordeaux 60 with a white lacquered interior finish.

The Bordeaux 60 team will be happy to welcome visitors in Paris boat, either for a simple visit or to more specifically go over the projects of prospective customers with them.

Meet us in Hall1, stand H42.
